

New Testers/Gauges

Ciel 3-in-One Tester

For testing and differentiating diamond, moissanite, and synthetics using thermal and electrical conductivity. Immediate test results; Fast start and no waiting time between tests. Includes: protective cap, carrier bag, practical collar, aluminum holder for loose stones, User manual, warranty card.

Infrared capability will work with optional Pistachio Meter
#560.9000 Ciel Dual Tester \$269.95

Pistachio Referential Meter

A companion for the Ciel & Azure testers. Provides an expanded display with large dial face. Works wirelessly via infrared system. Color-coded distinct stone categories.

#560.9010 Infrared Pistachio Meter \$169.95

Azure Diamond Tester

Ideal device for testing Gemstones. Distinguishes Diamonds from Moissanites. Retractable tip prevents damage when excessive force is applied. Infrared capability will work with the optional Pistachio Meter. Will test stones as small as 0.02 ct.

#560.9020 Azure Diamond Tester \$129.95

Saffron Gem Gauge

Unique design allows for fingerless picking up and simultaneous measuring of loose gemstones. No need for a tweezer in one hand and a gauge in the other. Efficiently measures in less than one second. Measuring range form 0.00 to 15.0mm with accuracy of 0.01

#560.9030 Saffron \$109.95
